I wish to express my gratitude to you and the staff of the Hoover Library for making the Chinese collection available to this organization. Certain documents have proved of great interest, and have demonstrated the importance of the unique material in the possession of the Hoover Library.

Cooperation of this nature by Stanford University and other academic institutions will make a major contribution to our task of assembling and analyzing information on foreign countries. I trust that we may continue to count on your personal interest in this and similar projects.

Sincerely yours,

RH
